Clearfire 6kw
Multi-Fuel Woodburning Stove

Brand: Coseyfire
Product Code: Clearfire

Clearfire 6kw

Multi-Fuel Woodburning Stove

This stove is compact and charming - a small stove with traditional styling. It is ideal for a standard fireplace opening. The brass fittings and detailed castings are appealing features that will compliment any living space. The Clearfire has been in our range since 2008 and has proved very popular.

The Clearfire has a range of features including an airwash system, multi-fuel riddling grate, air tight seals and a choice of top or rear flue outlets. This is a bargain at the current price.

A top air control allows the air to be directed down the glass to keep it clean and add secondary air to complete combustion for a more efficient stove (75% efficient).

The Clearfire has a flat top that is great for cooking and boiling a kettle on. The thick cast iron body retains heat for a long period of time which reduces the need to refuel.

The Clearfire is hand made in a thick casting with Australian iron ore and has a very smooth blemish free surface. Many stoves, including expensive brands still use re-melted scrap for their castings. The high phosphorous and sulphur content of re-melted scrap leads to subsequent cracking of the stove.

- Finished to a high standard with durable seals and controls.
- Air tight seals, and smooth door mechanism.
- Complies to CE and BSEN standards so can be fitted legally in the UK.
- Best UK price guaranteed.
- Over 2000 stoves kept in stock.
- Genuine trade prices to the public.

Clearfire 6kw Multi-Fuel Woodburning Stove

Stove Fittings
