Coseyfire 100 Multi-Fuel Woodburning Stove 6kw

Brand: Coseyfire

Product Code: Coseyfire 100

Coseyfire 100

Multi-Fuel Woodburning Stove 6kw

The Coseyfire 100 is a sleek, contemporary, multi-fuel woodburning stove from our reliable and very popular range of Coseyfire cast iron stoves. This 6kw contemporary cast iron woodburning, multi-fuel stove has an ample combustion chamber that can be filled with good sized seasoned logs, or smokeless coal. All of our Coseyfire stoves have a long burn time, due to their thick casting, airtight air vents and sealed door gaskets. This means you can sit back and enjoy the stove for longer, without having to re-fuel. In time this will result in a huge saving on coal or wood.

The Coseyfire 100 has a range of features including pre-heated airwash, multi-fuel riddling grate, air tight seals and a choice of top or rear flue outlets. It also has a flat top for cooking or boiling a kettle on. This makes it a bargain at the current price.

A top air control allows the air to be directed down the glass to keep it clean and add secondary air to combustion resulting in a very efficient stove (rated 75% efficient).

We are so confident of the quality of this product we offer a 100% no questions asked returns policy. Just send it back and you will receive a full refund for the stove, excluding shipping fees.

The Coseyfire 100 is hand made in a thick casting from Australian iron ore and has a smooth, blemish-free surface. Many stoves, including expensive brands still use re-melted scrap for their castings. The high phosphorous and sulphur content of re-melted scrap leads to subsequent cracking of the stove.

- Finished to a high standard with durable seals and controls
- Air tight seals, and smooth door mechanism.
- Complies to CE and BSEN standards so can be fitted legally in the UK
- Best UK price guaranteed.
- Over 2000 stoves kept in stock.
- Genuine trade prices to the public.
