Coseyfire CL50

4.5kw, Multi-Fuel Woodburning Stove, With convection

Brand:Coseyfire

Product Code: Coseyfire CL50

Coseyfire CL50

4.5kw, Multi-Fuel Woodburning Stove, With convection

About the Stove

This delightful and popular stove has been in the Coseyfire range for many years now. It has proven to be very durable, efficient and very popular. The stove incorporates a sizeable firebox for a 4.5kw stove and a full integral multi-fuel grate for burning wood and smokeless fuel. The stove has a very large 300mm by 270mm pane of German SCHOTT glass that gives you a clear uninterrupted view of the fire.

We have incorporated an effective convection system that draws cool air into the stove and forces hot air into the room. Insert stoves as a whole struggle to get a huge amount of heat into the room, and this technology helps to make the stove more efficient at distributing heat.

The CL50 is designed to comfortably sit back into a standard 16" or 18" fireplace opening; perfect for people who do not want to alter their fireplace. With a maximum heat output of 4.5kw it will heat a good sized space and will not require extra ventilation.

Guarantee

12 month guarantee

(This covers the stove's body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

The Coseyfire CL50 has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

- ★ Heat Output : 4.5Kw
- ★ Pre-heated airwash system: Yes
- ★ Outlet : 6" (155mm) top only
- ★ Over night burn : Yes, Very efficient and easy to achieve
- ★ Heat resistant glass: Yes, German Schott glass

- ★ Guarantee : 12 months
- ★ Firebricks : Both sides and back have cast iron fire bricks
- ★ Bits and bobs : Ash pan tool, Oven Glove, Ash pan, Full manual, Fire Rope Seals
- ★ Spare parts available : Yes
- ★ Height - 600mm
- ★ Width - 480mm

Stove Construction

Body - The stove is made from thick Australian cast iron allowing the stove to radiate heat for much longer than stoves with thinner castings. The stove is also made entirely from mineral cast iron and not re-melted scrap like many others. This gives the stove a much less chance of cracking in the future.

Fire brick- Both sides and back have cast iron fire bricks

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

Coseyfire CL50

4.5kw, Multi-Fuel Woodburning Stove, With convection

External Width - (The part that fits into the fireplace)	405mm
Height	600mm
Width	485mm
Depth	285mm
Power	4.5kw

Brian 21/10/2014

Very good value for money. Looks great, was straightforward to install and seems very sturdy.

Jonny 20/10/2014

Better than I ever would have believed for the price.

Rich 05/04/2014

I was very happy with the service i recieved and the help and advice over the phone when fitting.

I am delighted with the stoves performance,its controls are easy and effective and it is easy to clean. I have found the smokeless 'duck eggs' which my coal merchant sells for £17 (50 kilo bag) to be the best fuel - high heat and very long burn. It easily heats my lounge which is L shaped and about 40 sq ft, with the door closed it starts to become too hot (for me but not the wife!), after about 2 hours, and with lounge door open it heats the majority of our 3 bed bungalow too. All in all I would say this is by far the best value inset stove out there by quite a margin. Top marks.

I installed the stove myself with a friend with very little fuss, the only improvement I can suggest is maybe that the flue collar could be changed so that it can be bolted from the inside - this way the flue pipe could be easily detached in the future if the stove needed to be removed for servicing etc.

 All stoves and accessories delivered in two to three days.
