

- ☆ Top quality wood burning stoves direct to you at trade prices.
- ☆ Speedy delivery. ☆ Long guarantees. ☆ Hundreds of 5 star reviews.

## Coseyfire Elegance 8kw

Clean Burn, Contemporary Woodburning Stove

Brand: Coseyfire

Product Code: Coseyfire + 8kw

### About the Range

This advanced range of high quality contemporary steel stoves has been carefully designed by the Coseyfire team to offer great value stylish products for a fraction of the price. We offer 4 different styles, 5kw with or without stand and 8kw with or without stand. All units are made from high quality steel and professionally welded with full CE and British standard data plate. This listing is for the 8kw version without the log store.

The stove's base does not exceed 100cm and is stated so on the data plate. In turn this means the stove can be fitted directly onto a 12mm hearth (Very important for free standing installations). Extra large log retainer. It is a common question asked whether we can supply taller log guards, so on this unit we have incorporated a chunkier and taller log retainer to prevent fuel falling out of the stove. At the same time we also designed a very durable new multi-fuel grate mechanism. Fixed secondary/clean burn system at the rear. This sucks in air from the rear passes it over the fire and helps to re-burn the initial smoke produced by the fire. This makes the stove very efficient and eco friendly. This system is usually seen on a lot more expensive stoves and will save you a fortune on fuel over the years.

### Guarantee

#### 2 year guarantee

(This covers the stove's body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

### Clean Burn System

The Coseyfire Elegance has an advanced tertiary clean burn system that is controlled by a chrome pull lever on the base of the stove. This lever opens and closes a vent that pulls air over the fire, re-burning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco friendly saving you a large amount on fuel costs.

### Overnight Burn

The Coseyfire range has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

### Stove Features

- ★ Heat Output : 8 Kw
- ★ Pre-heated airwash system: Yes
- ★ Outlet : 5" (125mm) top and rear
- ★ Over night burn : Yes, Very efficient and easy to achieve
- ★ Heat resistant glass: Yes, German Schott glass

### Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.
