- ☆ Speedy delivery. ☆ Long guarantees. ☆ Hundreds of 5 star reviews.

Cosefire Petit 5kw Wine Red Enamel - DEFRA APPROVED

Brand:Cosefire

Product Code: Cosefire Petit

About the Stove

This advanced unit has been designed by our brand Coseyfire and incorporates an advanced pre-heated secondary burn system ensuring a clean and efficient burn. This stove is wonderfully hand constructed and blends traditional styling and modern efficiency. The Petit is made from thick mineral cast iron, and is designed to stand the test of time. Clean lines make it suitable for a wide range of decor, styles and tastes. The Petit is a multi-fuel stove that will deliver a reliable source of heat with an accurate degree of control. Controlled by the secondary airflow lever and the chrome spin dial on the stoves door, you will find this stove a joy to use.

DEFRA Approved

We have recently had the stove put through rigorous CE and smoke control tests here in the UK at Kiwa Gastec. We are glad to say the stove has passed with flying colours and due to the stoves new tertiary air system it is running at over 75% efficient. This will save the user a lot of money over the years. To top it off the stove has also passed a tough DIN+ particle test that will soon be required for all stoves in the UK. It has also been approved to burn wood and smokeless coal in a smoke controlled zone. This stove is completely future proofed and an absolute bargain at the price advertised.

Clean Burn System

The Coseyfire Petit has an advanced tertiary clean burn system that is controlled by a chrome pull lever on the base of the stove. This lever opens and closes a vent that pulls air over the fire, reburning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco-friendly saving you a large amount on fuel costs.

Guarantee

12 month guarantee

(This covers the stove's body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

Coseyfire Petit has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

Heat Output : 5Kw

Pre-heated airwash system: Yes

Outlet : 5" (125mm) top and rear

Overnight burn : Yes, Very efficient and easy to achieve

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 wood burning stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.
