Defra Approved Hampton Highline 5kw - Black

Brand: Hampton Collection
Product Code: HAMPHIGH

Defra Approved Hampton Highline 5kw - Black

2022 Eco Design Ready

The Defra Approved Hampton Highline 5 has been tested and approved to meet the new Ecodesign requirements that will be mandatory for all stoves by 2022, making this a stove for now and for the future. This model not only meets but exceeds the government's tough requirements by some distance.

The Technology

The Hampton 5 boasts some of the lowest combined readings of NOx, CO and dust of any wood burning stove sold in the UK. In response to the government's initiatives to lower such emissions from wood burning stoves, you can rest assured that you have one of the cleanest stoves for sale in the UK. This unrivalled clean burn has been achieved by the quality engineering exhibited in all Hampton models. All bodies are made from thick steel plate that is perfectly folded and welded together, ensuring no unwanted air can leak into the stove.

We confidently offer a 7 year warranty on this product.

Crystal Clear Glass

As mentioned in the technology section the air is drawn into the fire low down at the stoves rear. The air races up and over the stoves chamber increasing in speed as it travels until it is unveiled and drops like a curtain over the stoves glass. This can be seen in action on the video attached at the start of this listing. This system is proven to be a very effective way of keeping the glass clean and clear of smoke stains providing the wood burnt is well seasoned.

7 Year Guarantee

This covers the stove's body and not the internal perishable parts like grates and fire bricks. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer or signed off by building control.

DEFRA Approved

The Hampton has been rigorously tested and approved to burn wood in a smoke controlled zones. Defra approved stoves with 5" flue outlets, like this one, can also be installed with a 5" liner.

Stove Features

- ★ **2022 Eco Design Ready**

Why Are We So Cheap?

We design and make a large amount of our products, including the Ecosy+ brand, and they come direct from our factory to us, meaning we can effectively sell stoves at trade prices direct to the public. We can stock over 2,500 wood burning stoves at any one time and ship direct to the customer with no showrooms. Take a look at our glowing feedback, with over 7,000 positive comments on our stoves and stove products.

Optional Extras

This unit comes with three optional extras. The first being a heat shield that reduces the distances to combustibles to just 100mm, perfect for free standing installs. The second is a vertical rear flue box that makes certain installations a lot easier and also gives the user a perfectly flat top, perfect for cooking. The final option is the wooden handle that gives the stove a very unique and stylish look for no extra cost.
