- ☆ Speedy delivery. ☆ Long guarantees. ☆ Hundreds of 5 star reviews.

Double Sided 8kw

Multi-Fuel Woodburning Stove

Brand:Ecosy+

Product Code: Double Sided 8kw

About the Stove

This advanced stove, suitable for a 12mm hearth, has been designed by our brand Ecosy+ and tested at KIWA Gastec in

Cheltenham to CE and British standards. No expense has been spared in the development of this product and the stove has recently been rated at 85% efficient; this is much higher than any other stove around this price range.

This advanced double fronted unit is designed to go between two rooms inside a fireplace or freestanding in the centre of a room. Each side includes air flow and air-wash sliders, enabling you to control the fire from both sides. The stove features two Schott heat resistant glass fronted doors that gives an amazing view of the fire from both rooms. These panes are kept clean with the advanced preheated airwash system that forces warm air over the glass. We are so confident of the stoves quality that we offer a 5 year guarantee.

Clean Burn System

The 8kw Double sided has an advanced secondary clean burn system that is controlled by a chrome pull lever on the base of the stove. This lever opens and closes a vent that forces air over the fire, re burning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco friendly saving you a large amount in fuel costs.

5 Year Guarantee

(This covers the stoves body and not the internal perishable parts like grates and fir bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

The Ecosy+ 8kw Double sided has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

- ★ 75% efficient
- ★ Flue diameter 150mm (6") with choice of top or rear flue outlet
- ★ Stove net weight **120kg**

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.
