# Hampton 5 5kw - Black

Defra Approved, Ecodesign Ready, 7 Year Guarantee

Brand: Hampton Collection

Product Code: HAMP

# Hampton 5 5kw - Black

Defra Approved, Ecodesign Ready, 7 Year Guarantee

## About the Stove

The Defra Approved Hampton 5 is one of the most up to date and cleanest wood burning stoves sold in the UK. It has been tested and approved to meet the new Ecodesign requirements that will be mandatory for all stoves by 2022, making this a stove for now and for the future. This model not only meets but exceeds the government's tough requirements by some distance. Find out more about the Ecodesign scheme at [stoveindustryalliance.com](http://stoveindustryalliance.com). The Hampton has also been Defra approved to burn wood in a smoke controlled zones. Defra approved stoves with 5" flue outlets, like this one, can also be installed with a 5" liner.

The hidden gem of this stove is its internal shell - effectively another stove inside the stove, where air is drawn in from the stove's rear, fed between these two layers of steel and precisely dispersed over the fire at the rear, through a series of holes inside the chamber. Having the air introduced high up in chamber is an effective way of re-burning the initial smoke and pollutants created by the fire. The air that is not dispersed through these holes speeds up as it rises over the fire and is released like a curtain of air over the glass. This heating effect speeds the air up and is the most effective way of keeping the glass clean. Practical and truly wonderful to watch.

The Hampton 5 is a wood burning only stove therefore does not require a multi-fuel grate or ash pan as wood loves to burn on the base. The stove is however lined with thick 30mm vermiculite boards that protect the stoves shell and its internal steel baffle is removable for sweeping. Under the stove is the simple push pull lever that gives an incredibly accurate degree of control over the fire as the vent plate is mechanically attached to the body. The Hampton has a 30mm thick virgin ore cast iron door that helps retain and slowly release the heat into the room in conjunction with the stove thick 10mm thick steel top and 5mm thick steel body. Going into the door is the stoves unique handmade twist handle with wooden lever. As with all parts of the Hampton they are well designed and engineered but not over-complicated. Too often stoves have over-complicated system that do not stand the test of time and can be incredibly expensive and complicated to fix. We confidently offer a 7 year warranty on this product.

## Crystal Clear Glass

The air is drawn into the fire low down at the stoves rear. The air races up and over the stoves chamber increasing in speed as it travels until it is unveiled and drops like a curtain over the stoves glass. This system is proven to be a very effective way of keeping the glass clean and clear of smoke stains providing the wood burnt is well seasoned.

## 7 Year Guarantee

This covers the stove's body and not the internal perishable parts. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer or signed off by building control

## Stove Features

- ✓ **2022 Eco Design Ready**
- ✓ **DEFRA APPROVED**
- ✓ **Over 84% efficient**
- ✓ **Some of the lowest combined NOX,CO AND DUST readings on a stove sold in the UK**
- ✓ **Woodburning only with flat fire brick base**
- ✓ **Design and Tested in the UK - All tests carried out by KIWA Gastec in Cheltenham**
- ✓ **Distance to combustible materials at the rear (300mm with heat shield and 375mm without)**
- ✓ **Distance to combustible materials at the side ( 550mm)**
- ✓ **Top and rear flue outlet included with a flue box as an option on checkout**
- ✓ **Flue diameter 125mm (5") with choice of top or rear flue outlet**
- ✓ **Pre-heated air wash system to help keep the glass clean**
- ✓ **Tertiary air system that re-burns the smoke for a clean and efficient burn.**
- ✓ **Air Brick/Vent Required? No (Some exceptions apply)**
- ✓ **Height : 500mm, 19.68 inches. Width: 420mm, 16.53 inches. Depth : 335mm 13.18 inches.**
- ✓ **125mm 5" top and rear flue collar included.**
- ✓ **Glass Size - 340mm x 300mm**
- ✓ **Internal stove dimensions - H: 300mm W: 320mm D: 210mm**

## Stove Construction

**Body** - 10mm thick steel top and 5mm thick steel plate sides.  
**Grate** - No grate required - Wood burns on the vermiculite base  
**Fire brick** - Vermiculite

## Optional Extras

This unit comes with two optional extras. The first is a heat shield that reduces the distances to combustibles to 300mm, perfect for free standing installs. The second is a vertical rear flue box that makes certain installations a lot easier and also gives the user a flat top, perfect for cooking. The vertical rear flue box only protrudes 160mm, allowing the user to use the rear flue option without having the stove stick too far out in the room.

| Outlets  | 125mm 5" top and rear flue collar included |
| Power  | 5kw  |

### Mr David Poole

22/01/2020

I bought a Hampton 5 with stand in December 2018 and was so pleased with it I bought another Hampton 5 (without stand) for another room last December. Its easy to light and get going and extremely efficient compared to our earlier generation stoves. The afterburn is fascinating to watch once it gets going. The only problem we found is if you have the rear box for the rear flue entry, the provided rope seal is not liquid proof if you have any tar deposits condensing in the flue and it will leak out. Stove World later advised also sealing with a heat resistant silicone and that has cured it. Service was good and the goods arrived well packed and on time. Thoroughly recommend both Stove World and the Hampton.

### Maria Callaghan

29/11/2019

Fabulous stove! Really couldn't be happier...easy to light, heats up rapidly, economical, lovely clear glass all at a bargain price. Absolutely delighted.

 All stoves and accessories delivered in two to three days.
