 Product Code: HAMP

# Hampton 5 5kw - Burnt Grey

Defra Approved, Ecodesign Ready, 7 Year Guarantee

The Defra Approved Hampton 5 is one of the most up to date and cleanest wood burning stoves sold in the UK. It has been tested and approved to meet the new Ecodesign requirements that will be mandatory for all stoves by 2022, making this a stove for now and for the future. This model not only meets but exceeds the government's tough requirements by some distance. Find out more about the Ecodesign scheme at [stoveindustryalliance.com](http://stoveindustryalliance.com).

The Hampton has also been Defra approved to burn wood in a smoke controlled zones. Defra approved stoves with 5" flue outlets, like this one, can also be installed with a 5" liner.

## The Technology

The Hampton 5 boasts some of the lowest combined readings of NOx, CO and dust of any wood burning stove sold in the UK. In response to the government's initiatives to lower such emissions from wood burning stoves, you can rest assured that you have one of the cleanest stoves for sale in the UK. All bodies are made from thick steel plate that is perfectly folded and welded together, ensuring no air can leak into the stove.

The Hampton 5 has been well designed and engineered but not over complicated. Too often stoves have over complicated system that do not stand the test of time and can be incredibly expensive and complicated to fix. Ecosy+ confidently offer a 7 year warranty on this product.

## Crystal Clear Glass

The air is drawn into the fire low down at the stoves rear. The air races up and over the stoves chamber increasing in speed as it travels until it is unveiled and drops like a curtain over the stoves glass. This system is proven to be a very effective way of keeping the glass clean and clear of smoke stains providing the wood burnt is well seasoned.

## 7 Year Guarantee

This covers the stove's body and not the internal perishable parts. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer or signed off by building control.

## Stove Features

- ✓ 2022 Eco Design Ready
- ✓ Some of the lowest combined NOX,CO AND DUST readings on a stove sold in the UK
- ✓ DEFRA APPROVED
- ✓ Over 84% efficient

- ✓ Internal stove dimensions - H: 300mm W: 320mm D: 210mm

## Stove Construction

**Body** - 10mm thick steel top and 5mm thick steel plate sides.  
**Grate** - No grate required - Wood burns on the vermiculite base  
**Fire brick** - Vermiculite

## Optional Extras

This unit comes with two optional extras. The first is a heat shield that reduces the distances to combustibles to 300mm, perfect for free standing installs. The second is a vertical rear flue box that makes certain installations a lot easier and also gives the user a flat top, perfect for cooking. The vertical rear flue box only protrudes 160mm, allowing the user to use the rear flue option without having the stove stick too far out in the room.

| Fantastic customer service, good advice and speedy delivery.<br>Hampton 5 SE in grey with matching flue pipe is a show piece. Stunning in design, modern with top efficiency and 2022 compliant.<br>Really pleased with purchase having looked a variety of stoves small enough to fit in a small recess, with 5kw output and maximum efficiency. Would highly recommend! |            |
