Hampton 6.4 Double Sided
Defra Approved, Ecodesign Ready

Brand: Hampton Collection
 Product Code: HAMP6.4D

Hampton 6.4 Double Sided

Defra Approved, Ecodesign Ready

2022 Eco Design Ready

The Hampton Double Sided is one of the cleanest double sided stoves sold in the UK. It is one of a very small number of double sided stoves that have been approved to meet the new Ecodesign requirements that will be mandatory for all stoves by 2022, making this a stove for now and for the future. Find out more about the 2022 Eco Design scheme at stoveindustryalliance.com.

The Technology

The Hampton 6.4kw boasts some of the lowest combined readings of Hydrocarbons, CO and dust output of any wood burning double sided stove sold in the UK. The Hampton has a 30mm thick virgin ore cast iron door that helps retain and slowly release the heat into the room in conjunction with the stoves thick steel body. The Hampton is well designed and engineered but not over-complicated. Too often stoves have over-complicated system that do not stand the test of time and can be incredibly expensive and complicated to fix. We confidently offer a 7 year warranty on this product.

Crystal Clear Glass

The hidden gem of this stove is its internal shell where air is drawn in from the stove's base fed between two layers of steel either side of and precisely dispersed over the fire. This system is proven to be a very effective way of keeping the glass clean and clear of smoke stains.

7 Year Guarantee

This covers the stove's body and not the internal perishable parts. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer or signed off by building control.
