Product Code: Nero 5

Nero 5

5Kw Contemporary Woodburning Stove - 2 Year Guarantee

About the Stove

Nero 5kw EUROPEAN BUILT stove from the exciting new ZONA range. One of the Nero's main features is its large schott glass viewing window. When the fire is burning it looks fantastic whether the stove is free-standing or in a fireplace.

Its airtight seals make the stove controls incredibly responsive. An overnight burn can easily be achieved when burning seasoned wood or smokeless coal. You will not be disappointed with the care and attention to detail this stove has received.

We are so confident of this, we offer a 100% no questions asked returns policy. Just send it back and you will receive a full refund for the stove, excluding shipping fees.

This stove has some unique features that are testament to the stoves well thought out design and quality finish.

This 5kw stove easily has the capacity to cook on its large 10mm thick steel top. Two large saucepans will fit on there.

Built to high German DIN standards, this stove has been in our range since 2011 and continues to exceed our customer's expectations. In our opinion the Nero range is the best value group of the stoves sold in the UK! This is based on feedback received from hundreds of customers, all delighted with the stove's impressive features.

Guarantee

2 year guarantee

(This covers the stove's body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

The Nero 5 has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

Firebox Width	400mm - 15.75 inches
Firebox Depth	250mm - 9.8 inches

Ashley	04/11/2017
<p>We are into our third season of running this stove having bought and installed it in February 2016. Efficiency is fantastic, quickly and easily heating the 5m x 5m living room with 2.7m high ceilings it's gone into. The lockable sliders provide ample control of supply air and screen wash air to control the burn. The ash pan is easy to remove and empty. The chamber can fit 2 or 3 standard sized chopped logs although 1 or 2 give off plenty of heat. It's quite a subtle timeless design and suits our traditional brick hearth and chimney breast. I don't really think you'll find a better stove at this size and price, it's just faultless. All in all a great stove. I collected it from Stove Work UK and the staff were very helpful with paperwork and then loading into my car etc.</p> <p>★ ★ ★ ★ ★</p>	

 All stoves and accessories delivered in two to three days.
