# Ottawa 5Kw With Log Store

## Contemporary Woodburning Stove- 5 Year Guarantee

### New

We have recently had the stove put through rigorous CE and smoke control tests here in the UK at Kiwa Gastec. We are glad to say the stove has passed with flying colors and due to the stove's new tertiary air system it is running at over 80% efficient. This will save the user a lot of money over the years. To top it off the stove has also passed a tough DIN+ particle test that will soon be required for all stoves in the UK. This stove is completely future proofed and an absolute bargain at the price advertised.

### About the stove.

This advanced unit has been designed by our brand Coseyfire as an advanced clean burning stove that is built to last for years to come. The stove incorporates an advanced pre-heated secondary burn system ensuring a clean and efficient burn. This stove is wonderfully hand constructed and blends traditional styling and modern efficiency. The Ottawa + is made from thick steel plate, and is designed to stand the test of time. Clean lines make it suitable for a wide range of decor, styles and tastes. The stove is a multi-fuel stove that will deliver a reliable source of heat with an accurate degree of control.

### Clean burn system.

The Ottawa has an advanced tertiary clean burn system that is controlled by a chrome pull lever on the base of the stove. This lever opens and closes a vent that pulls air over the fire, re-burning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco-friendly, saving you a large amount on fuel costs.

### Why are we so cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

### Construction

**Body** - 10mm thick steel top and 5mm thick steel plate sides.

**Grate** - Includes a virgin ore cast iron ash riddling grate

**Fire brick** - Stone

### Guarantee

5 year guarantee

(This covers the stove's body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

### Overnight Burn

The Coseyfire Ottawa + has an excellent overnight burn system. Its air-tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

### Stove Features
