Ottawa 5kw - DEFRA Approved

80% efficient, 5 Year Guarantee, Multi-Fuel Stove

Brand: Ottawa

Product Code: Ecosy+ Ottawa 5kw -DEFRA

Ottawa 5kw - DEFRA Approved

80% efficient, 5 Year Guarantee, Multi-Fuel Stove

About the Ecosy+ Ottawa 5

This Ecosy+ brand is designed and built by us here at Stove World, and is only available from us and a few carefully-selected stockists and installers. The Ottawa is an industry respected stove that has an advanced secondary burn system that has helped it pass the tough Defra requirements. This multi-fuel stove is wonderfully hand constructed and blends traditional styling with modern efficiency. The Ottawa is a hybrid stove with a thick steel body and virgin cast iron door. Designed to stand the test of time, its clean lines make it suitable for a wide range of decor, styles and tastes. The stove is a multi-fuel model that will deliver a reliable source of heat with an accurate degree of control whether you are burning wood or smokeless coal.

DEFRA Approved

The Ottawa 5 has been put through rigorous CE and smoke control tests here in the UK at Kiwa Gastec. We are proud to say the stove has passed with flying colours and, due to the stove's new secondary air system, it is running at over 80% efficient - a figure higher than most stoves sold in the UK. To top it off the stove has also passed a tough DIN+ particle test further proving it is a clean burning unit.

This version of the Ottawa 5 has been approved to burn wood and smokeless coal in a smoke controlled zone. Also available at a lower cost: the [non-Defra version of the Ottawa 5kw](#).

Clean Burn System and additional air

The Ottawa 5 has an advanced clean burn system. This system works by drawing in air from the stove's base and filtering it over the fire bed. The addition of extra air over the fire is a proven way of burning off the initial smoke produced by the fire before it is released up the chimney. This system increases the stove's efficiency and means less fuel will be consumed by the fire, saving you time, effort and money. In addition, the stove has an up to date air wash system that filters air over the glass helping to keep this clean and clear.

Guarantee

5 year guarantee

(This covers the stove's body and not the internal perishable parts like glass, grate and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Why Are We So Cheap?

People often ask us how are prices so cheap, and we understand why. Through Ecosy+ stoves we design and make a large amount of our products and they come direct from our factory to us, completely cutting out the middleman. We can stock over 3000 wood burning stoves at any one time and ship direct to the customer opposed to selling to a third party who will add an additional 40% to 50% margin. We suggest buyers thinking of purchasing an Ottawa 5kw take a look at our glowing feedback on our website, Trustpilot, google and a number of social media platforms.

05/10/2018

Bought the Ottawa 5 Defra stove on the recommendation of Darren from Dalisa Fireplaces, Northumberland. Glad we took his advice. Brilliant stove. Worth every penny.

Brian

15/01/2018

This is the second winter that we have used the Ottawa 5kw stove and we are delighted with it. We have a 24ft x 17ft lounge and the stove kept this room comfortable last winter when the central heating failed during several days of frosty weather. The build quality is excellent - equally as good as some big brand names that we looked at before buying this stove, it is economical to run, and very good value for money. What more would you want!

Bryony

04/01/2018

Could not be more happier with this stove! We have had it in for over a month and so pleased with it. Stove world were very helpful over the phone and purchasing and delivery was 10/10. The stove kicks out a lot of heat and heats up very quickly! So glad we didn't purchase an expensive up market stove when this does just the job.

Thank you again, Bryony

 All stoves and accessories delivered in two to three days.
