*Ottawa 5kw Multi-Fuel*  
*80% efficient, 5 Year Guarantee*

Brand:Ottawa

Product Code: Ecosy+ Ottawa 5kw

# Ottawa 5kw Multi-Fuel

## 80% efficient, 5 Year Guarantee

### About the Stove

We have recently had the stove put through rigorous CE and smoke control tests here in the UK at Kiwa Gastec. We are glad to say the stove has passed with flying colors and due to the stove's new tertiary air system it is running at over 80% efficient. This will save the user a lot of money over the years. To top it off the stove has also passed a tough DIN+ particle test that will soon be required for all stoves in the UK. This stove is completely future proofed and an absolute bargain at the price advertised.

This advanced unit has been designed by our brand Coseyfire as an advanced clean burning stove that is built to last for years to come. This stove is wonderfully hand constructed and blends traditional styling and modern efficiency. The Ottawa + is made from thick steel plate, and is designed to stand the test of time. Clean lines make it suitable for a wide range of decor, styles and tastes. The stove is a multi-fuel stove that will deliver a reliable source of heat with an accurate degree of control.

### Clean Burn System

The Ottawa has an advanced tertiary clean burn system that is controlled by a chrome pull lever on the base of the stove. This lever opens and closes a vent that pulls air over the fire, re-burning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco friendly saving you a large amount on fuel costs. This version of the Ottawa 5kw is not Defra-approved. Also available: [Defra-approved version of the Ottawa 5kw](#)

### Guarantee

5 year guarantee

(This covers the stove's body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

For the stove to be covered it must be installed by a HETAS engineer.

### Overnight Burn

The Ecosy+ Ottawa has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

### Stove Features

- ✓ **Heat Output** : 5Kw

24/01/2019

This stove is fantastic. Had it in for 3 winters now and cannot fault it in any way, shape or form. I find the 3 air controls excellent for good burns on both smokeless coal and logs. We always use kindling to start, add approx. 16 nuggets of smokeless coal then burn wood for the rest of the evening and have found this to be the most efficient way of using the stove. Heat output is fantastic and easy to control. Installer was sceptical when I told him I had ordered from the internet but he was more than impressed when he actually saw it and then installed it. He said having the adjustable feet was an added bonus and these are not always on the more expensive models. Have just changed the fire rope around the door after 3 winters, other than that all still as good as new. Trick is only burn what you're supposed to and you won't have anything to worry about. Would not hesitate to buy this again if I ever need to. Great Stove, love it lots, should have put one in years ago!

Since installation the stove has performed beyond expectations. The heat output is fantastic! The recent cold snap we had, "The Beast from the East", really put this stove to the test. It fits in beautifully with our Victorian decor sitting room and adds in a complimentary contemporary look. 5

 All stoves and accessories delivered in two to three days.
