## Ottawa 5kw

DEFRA APPROVED 80% efficient, Contemporary Woodburning Stoves Multi Fuel. 5 YEAR GUARANTEE

Brand: Ottawa

Product Code: Ecosy+ Ottawa 5kw -DEFRA

# DEFRA APPROVED 80% efficient, Ottawa 5kw Contemporary Woodburning Stoves Multi Fuel. 5 YEAR GUARANTEE

## About the Stove

This Ecosy+ brand is designed and built by Stove World and is available only from us and a few carefully-selected stockists. The Ottawa is an advanced, clean burning stove that is built to last for years. This wood burning / multi-fuel stove is wonderfully hand constructed and blends traditional styling with modern efficiency. The Ottawa is made from thick steel plate and is designed to stand the test of time. Clean lines make it suitable for a wide range of decor, styles and tastes. The stove is a multi-fuel stove that will deliver a reliable source of heat with an accurate degree of control.

## DEFRA Approved

We have recently had the stove put through rigorous CE and smoke control tests here in the UK at Kiwa Gastec. We are glad to say the stove has passed with flying colours and due to the stoves new tertiary air system it is running at over 80% efficient. This will save the user a lot of money over the years. To top it off the stove has also passed a tough DIN+ particle test that will soon be required for all stoves in the UK. This stove is completely future proofed and an absolute bargain at the price advertised.

This version of the Ottawa 5 has been rigorously tested and approved to burn wood and smokeless coal in a smoke controlled zone. Fitted with a mechanical stop to prevent secondary air closure beyond the 31mm open position. A 5" flue liner can be fitted onto this stove. When ordering over the phone please specify that you require the DEFRA version. If not you may be sent the non DEFRA unit.

## Clean Burn System

The Ottawa has an advanced tertiary clean burn system that is controlled by a chrome pull lever on the base of the stove. This lever opens and closes a vent that pulls air over the fire, re burning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco friendly saving you a large amount on fuel costs.

## 5 Year Guarantee

(This covers the stoves body and not the internal perishable parts like grates and fir bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

## Overnight Burn

Close the stove right down overnight and in the morning just add a little coal or wood and watch the fire roar again.

## Stove Features

- ★ Heat Output : 5Kw
- ★ Pre-heated airwash system: Yes
- ★ Outlet : 5" (125mm) top and rear
- ★ Over night burn : Yes, Very efficient and easy to achieve

- ★ Spare parts available : Yes
- ★ 70 KG

## Stove Construction

**Body** - 10mm thick steel top and 5mm thick steel plate sides.

**Grate** - Includes a virgin ore cast iron ash riddling grate

**Fire brick** - Stone

## Why is a mechanical stop added?

This is to prevent full closing down of the stove. A fully closed down stove burns less efficiently, emitting more smoke particles. This addition combats that issue and allows it to be installed in smoke control areas.

## Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

Thanks stoveworld for the ottawa 5kw deffra approved stove packed brilliantly and is of the highest quality , it has provided a good focal point for my room had my stove installed by alan Danbury Fires Ltd wallington who done an excellent job! at reasonable price.

### L smith

06/11/2016

Bought this stove after looking in show room after show room and was a little sceptical of the low price, however no dissapointment it's a fab stove for the money solid and easy to use it gets so warm my son leaves the room and I was thinking of getting the 7kw so glad I didn't would highly recommend and tell anyone not to waste their money on high priced showroom burners as this does what it's says and looks really nice too

### Caroline Part

18/06/2016

I bought this stove for 2 reasons... 1: the simple, contemporary design the and large window - I want to see those flames! 2: The cost, I had a very limited budget! I was slightly nervous as it is such a low priced stove compared to most others on the market, but those concerns have gone completely out the window. It is a great stove, which pumps out the heat and looks fantastic to boot. The instructions for the first few lights are very clear and helpful, and now I have got it up and running I couldn't be happier. The service from Stove world was great too, no complaints about that at all.

 All stoves and accessories delivered in two to three days.
