Multi Fuel, Clean Burn, 5 Year Guarantee*

Brand:Ottawa

Product Code: Ecosy+ Ottawa 7kw

Ottawa 7-8kw Multi-Fuel

Multi Fuel, Clean Burn, 5 Year Guarantee

About the Stove

This advanced unit has been designed by our UK brand Ecosy+ at great expense and has proven to be one of our best sellers since its launch in 2013 with numerous 5* reviews on eBay, Google and Twitter. We feel this stove is one of the best looking and up to date designs on the market, backed up with a quality finish and high efficiency output. This high efficiency is achieved by a modern secondary/tertiary burn system that forces air over the fire to re-ignite the initial smoke produced by the fire. This feature reduces the fuel required and produces less potentially harmful emissions. This stove features a huge fully heat resistant glass fronted door that gives an amazing view of the fire and is kept clean with the advanced preheated airwash system. Those of you who have had fires before will know this feature is very important, as looking at the fire roar is a real treat. The stove has a hybrid construction that consists of a fully welded 5mm thick steel body and 10mm thick steel top and the door is made from mineral cast iron with a brushed chrome handle. We are so confident of its quality that we offer a 5 year guarantee; something that is not offered on any other stove around this price.

Clean Burn System

The Ottawa 7-8kw has an advanced secondary clean burn system that is controlled by a chrome lever on the base of the stove. This lever opens and closes a vent that pulls air over the fire, re-burning the initial smoke emitted by the stove. This makes the stove a lot more efficient and eco-friendly, saving you a large amount in fuel costs.

5 Year Guarantee

This covers the stove's body and not the internal perishable parts like grates and fire bricks. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

The Ecosy+ Ottawa 7-8kw wood burning stove has an excellent overnight burn system. Its air-tight door gaskets and manual air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

- ✓ **Heat Output** : 7-8Kw

Excellent service ordered on the Monday delivered on the Thursday keep up to date with the delivery. The stove is brilliant well made and I would like to thank Kelly for all her help would definitely recommend to any buying a stove

Damian Gillespie 10/11/2019

I found the ordering and delivery process simple and smooth. The instructions were clear and the installer thought this was a good burner and especially good value.

The heat is certainly impressive and a lovely cosy view of the fire. You do have to clean the glass pretty often, I discovered there is no point buying a product for this, just moist kitchen roll dipped in ash - takes 10 seconds!

As with all similar burners including many into four figure sums, the ashpan is too small, really only enough for 2 longer burns. This is the only reason for a 4 star not a 5.

Overall very happy with both burner and my bank balance after purchase.

Terry Diamond 16/08/2019

Placed an order for the 7-8kw Ottawa Clean Burn Contemporary Woodburning Stove after carrying out research on the stoves available for the price range, after reading all the positive feed back i was happy to order this stove, the delivery was prompt, dispatched on a wednesday and arrived with me in Belfast on Friday... after unpacking i found slight damage to the door handle but stoveworld sent replacement after i reported it to them, great quality, very happy with this stove, would highly recommend stoveworld, great service.

 All stoves and accessories delivered in two to three days.
