Purefire Ecosy+ Curve 5Kw
Contemporary Woodburning Stove, Multifuel - 5 Year Guarantee

Brand: Purefire

Product Code: Ecosy+ Curve (Purefire)

Purefire Ecosy+ Curve 5Kw

Contemporary Woodburning Stove, Multifuel - 5 Year Guarantee

About the Stove

This advanced wood burning stove, suitable for a 12mm hearth, has been designed by our brand Ecosy+ and tested at KIWA Gastec in Cheltenham to CE and British standards. No expense has been spared in the development of this product and the stove has recently been rated at 85% efficient; this is much higher than any other stove around this price range.

This stove proves there is no need to spend £700+ to get an advanced, good quality stove. Some of the features on this stove include a huge fully heat resistant glass fronted door that gives an amazing view of the fire. Those of you who have had fires before will know this a big plus of owning a stove. The stove is a fully welded construction that includes a 5mm thick body and 10mm thick top. We are so confident of its quality that we offer a 5 year guarantee; something that is not offered on any other stove around this price bracket.

We have tried to give this stove a very minimal aesthetic and have therefore tucked away the air controls under the bottom ash lip which allowed us to increase the glass size for a maximised view of the fire. The stoves air supply is solely drawn in from the rear and regulated by the two sliding controls on the front. This advanced design makes the stove adaptable for a "direct air feed" which is perfect for new homes. The dimensions of this outlet is 90mm internal diameter and 100mm external diameter.

This version of the 5kw Purefire Curve is **not** Defra approved.
Also available: [Defra Approved version of the Ecosy+ 5kw Curve.](#)

Clean Burn System

The advanced secondary/tertiary clean burn system takes in air from the rear and feeds it under and over the fire and over the glass to help keep it clean. The secondary burn feature re-burns the initial gasses and smoke produced from the fire, saving you money on fuel.

5 Year Guarantee

(This covers the stoves body and not the internal perishable parts like grates and fir bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

The Ecosy+ Curve has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

- ★ Large German Schott glass window.
 - ★ Tight locking doors with chrome handles.
 - ★ Top and rear flue outlet.
 - ★ FREE Stove World UK printed over glove.

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

Outlets	125mm 5" top and rear flue collar included
Power	5kw

Spencer 14/02/2018

Hi Stove World,

A quick email to say the new Ecosy 7-8 was installed by our local installer Heatshine from Cardigan today.

We live on top of a hill and had strong winds straight off the sea today, this has made lighting our old stove difficult on occasions. The Ecosy took first time, a gentle burn as per instructions. Once cooled down a second light burn and again no issues.

Once fully cooked down we did a third burn, again no starting issues, and on the cool down, when there were only a few embers left I chucked in some very lite kindling, withing 60 seconds we had a flame. We are really pleased from the first phone call to placing order, to delivery SW have been a pleasure to deal with - thank you

I would like to add due to the cost we researched and researched and are pleased we took the decision to go with the Ecosy

If you would like to use this as review please do.

Images are from the second burn

Clive Burton 04/12/2017

Good Morning Stoveworld,

My stove - ordered and paid for late Friday afternoon - conscientiously delivered as instructed, by 999 your courier contractors, by 10am Monday morning.!

That's what I call exceptional service. Well done, and Thankyou I a very pleased and satisfied Clive Burton

I bought an ecosey + 5 kw and had it installed recently. I must say I am very pleased. I have a Chesney Salisbury in another room and it certainly on par with that at a third of the price!

 *All stoves and accessories delivered in two to three days.*
