Purefire Curve 5kw With Stand and Ivory Enamel Door DEFRA APPROVED, 5 YEAR GUARANTEE

Brand: Purefire

Product Code: Ecosy + Curve5kw -DEFRA - Stand - Cream

Purefire Curve 5kw With Stand and Ivory Enamel Door

DEFRA APPROVED, 5 YEAR GUARANTEE

About the Stove

Here we have the unbelievably popular 85% efficient Curve Defra with a little twist; perfect for those wanting something a bit different. This version has its door enamelled in ivory/cream and makes the stove look truly unique. Enamel also has the added benefit of being easily cleaned and isn't prone to gathering dust and dirt. No expense has been spared in the development of this product and the stove has recently been rated at 85% efficient; this is much higher than any other stove around this price range.

This stove proves there really is no need to spend £700+ to get an advanced, good quality stove. Some of the features on this stove include a huge fully-heat-resistant glass-fronted door that gives an amazing view of the fire. We are so confident of its quality that we offer a 5 year guarantee - something that is not offered on any other stove around this price bracket.

We have tried to make this stove as minimal as possible and have tucked away the air controls. The secondary burn feature is a real advantage as this re-burns the gasses and smoke produced from the fire. This means you are getting every drop of heat from your fuel and in turn will save you filling the stove up as often, saving you money and time.

DEFRA Approved

We have recently had the stove put through rigorous CE and smoke control tests here in the UK at Kiwa Gastec. We are glad to say the stove has passed with flying colours and due to the stove's new tertiary air system it is running at over 85% efficiency. This will save the user a lot of money over the years. To top it off, the stove has also passed a tough DIN+ particle test that will soon be required for all stoves in the UK. This stove is completely future-proofed and an absolute bargain at the price advertised.

Clean Burn System

The Ottawa has an advanced secondary/tertiary clean burn system.

Guarantee

5 year guarantee

(This covers the stoves body and not the internal perishable parts like grates and fire bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

- ★ Spare parts available : Yes
- ★ 90 KG

Stove Construction

Body - 10mm thick steel top and 5mm thick steel plate sides.

Grate - Includes a virgin ore cast iron ash riddling grate

Fire brick - Stone

Why is a mechanical stop added?

This is to prevent full closing down of the stove. A fully closed down stove burns less efficiently, emitting more smoke particles. This addition combats that issue and allows it to be installed in smoke control areas.

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how it can be done so cheap. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

Purefire Curve 5kw With Stand and Ivory Enamel Door
