

- ☆ Top quality wood burning stoves direct to you at trade prices.
- ☆ Speedy delivery. ☆ Long guarantees. ☆ Hundreds of 5 star reviews.

Purefire 7-8kw Curve - 5 Year Guarantee

Brand: Purefire

Product Code: Ecosy+ Purefire 7-8kw - Curve

About the Stove

This advanced stove has been designed in Hampshire by Ecosy+ stoves and elegantly combines style and modern stove performance. The stoves minimalistic looks have been made possible by discreetly tucking the air controls under the fire. By tucking these controls under the fire it enables the stove to have a large glass front that is framed with the smooth clean lines of the curved cast iron door. The controls are cool to touch under the fire and still easy to reach. The stoves air supply is solely drawn in from the rear and regulated by the two sliding controls on the front. This advanced design makes the stove adaptable for a "direct air feed" which is perfect for new homes.

This advanced stove benefits from having an integrated air jacket that has cold air from the outside fed into it, drawn over the fire box and dispersed over the glass. This design is thought to be the most effective way of keeping the glass clean and clear of smoke stains as the air is super heated and sped up over the fire box before hitting the glass. This design is very useful on stoves like Purefire Curve because the glass front almost goes from top to bottom.

Clean Burn System

The Ecosy+ has an advanced secondary/tertiary clean burn system. On more advanced units like this one, it is common to have the air fed in from the rear and split off to be fed under the fire, over the fire (Secondary burn) and over the glass to help keep it clean and clear (Airwash system). The secondary burn feature is a real advantage as this re-burns the initial gasses and smoke produced from the fire. This means you are getting every drop of heat from your fuel and in turn will save you filling the stove up as often, saving you money and time on fuel.

5 Year Guarantee

(This covers the stoves body and not the internal perishable parts like grates and fir bricks.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

Overnight Burn

The Ecosy+ Purefire Curve has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow allows you to close the stove right down overnight and wake up to a warm house in the morning. All you need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

- ★ Large German Schott glass window.
- ★ Tight locking doors with chrome handles.
- ★ Top and rear flue outlet.
- ★ FREE Stove World UK printed over glove.
- ★ Chrome airwash fittings.
- ★ Solid Multi-Fuel grate for burning wood and smokeless coal.
- ★ Coal guard, ash pan, ash pan handle.
- ★ Full vermiculite fire brick lining.
- ★ Finished in heat resistant matt black paint.
- ★ Maximum efficiency of 76.5%
- ★ Maximum CO emissions 0.24%
- ★ Flue diameter 125mm (5") with choice of top or rear flue outlet
- ★ Typical log approx 400mm long
- ★ Gross weight - 80kg
- ★ 10mm thick steel top, 5mm thick body
- ★ CE and British standard approved
- ★ Pre-heated air wash system to help keep the glass clean
- ★ Tertiary air system that re-burns the smoke for a clean and efficient burn.
- ★ Slow overnight burn can be achieved with the advanced air systems.
- ★ Height : 560mm, 22.4 inches.
- ★ Width: 470mm, 18.5 inches.
- ★ Depth : 390mm 15.3 inches.
- ★ Distance from the back of stove to centre of top flue 150mm 6 inches.
- ★ Distance from floor to centre of rear flue outlet 445mm - 17.5 inches.
- ★ 125mm 5" top and rear flue collar included.
- ★ Glass - 350mm X 340mm
- ★ Internal stove dimensions - H: 250mm W: 380mm D: 250mm

Stove Construction

Body - 10mm thick steel top and 5mm thick steel plate sides.

Grate - Includes a virgin ore cast iron ash riddling grate

Fire brick - Stone

Why Are We So Cheap?

We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 3,500 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7000 positive comments on our stoves and stove products.

Purefire 7-8kw Curve - 5 Year Guarantee

Stove Fittings

Fittings	Chrome fittings and long handle for easy use and leverage

Excellent burner that looks modern. The heat from this stove is incredible and has to be the easiest stove I've had to get a fire going. I have an open plan ground floor that opens up in to the kitchen and this fire once cooking heats up the whole house. The stove settings for air flow are easy to adjust and very manageable if you need to up or down the output. The large pane window really sets off the cosy look and warmth relaxing flicker you'd enjoy whilst putting your feet up. You can run the burner with one log or 5 depending on how intense you want to heat up the space but 2 logs of birch or ash generate a desired long output of heat. I've not used coal and don't plan too, the logs are brilliant and efficient enough. I would recommend this to anyone looking for a solid, expensive looking stove at a fraction of that cost. It arrived looking more like a £2000 stove and feels like quality materials have been used all round. I've had 100+ hours out of it so far and no hiccups.

It's a lovely stylish stove and throws out a lot of heat; compared with some stoves this is well priced and good quality and I'd be happy to recommend it. Best wishes

Siv Macarthur

16/12/2016

We were very impressed with the stoves arriving so promptly. They look very nice and we felt the prices paid for them very reasonable. Unfortunately our installer was not as reliable as you. The stoves are still sitting in the middle of the sitting rooms so we cannot comment on their efficiency etc. yet.

 All stoves and accessories delivered in two to three days.
