# Ecosy+ Panoramic 5kw

Defra Approved, Eco Design Ready, 5 Year Guarantee

Brand: Panoramic

Product Code: Slimline 5kw

# Ecosy+ Panoramic 5kw

Defra Approved, Eco Design Ready, 5 Year Guarantee

## 2022 Eco Design Ready

This stove has been tested and approved to meet the new Eco Design requirements that will be mandatory for all stoves by 2022, making this stove for now and the future. These test results have been approved by **HETAS** and listed on their official website. Find out more about the Eco Design scheme at [stoveindustryalliance.com](http://stoveindustryalliance.com).

## About

This stove answers a lot of customers' problems - they need a physically large wood only stove but can only install one with a 5kw output. Cleverly, the external body is very wide (560mm) but the depth of the stove is shallow (314mm) so this can be achieved. The inner layer has also been tapered in at the sides, but the firebox is still 400mm wide meaning large logs are not a problem.

This stove has a sleek aesthetic with tucked away air controls which allows for larger glass size and a maximised view of the fire. The stove's air supply is drawn in from the rear and regulated by the sliding control on the front. This advanced design makes the stove adaptable for a "direct air feed" which is perfect for new homes. Note - On a standard install you will not require a direct air feed kit or an air brick installed in the room for this stove. This will only apply for new builds.

## Clean Burn System

The Ecosy+ has an advanced secondary/tertiary clean burn system. The secondary burn feature is a real advantage as this re-burns the initial gasses and smoke produced from the fire. This means you are getting every drop of heat from your fuel and in turn will save you filling the stove up as often, saving you money and time on fuel.

## 5 Year Guarantee

This covers the stove's body and not the internal perishable parts like grates and fire bricks. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer or signed off by building control.

## Stove Features

- ✓ **2022 Eco Design Ready - Approved by HETAS**
- ✓ **DEFRA APPROVED**
- ✓ **Over 80% efficient**
- ✓ **Woodburning only with flat fire brick base**

From the moment I saw your stove in a google search, and your highly informative videos, I was confident that I was dealing with some expertise in the world of stoves! I had numerous questions that Kelly answered promptly despite working from home at this difficult time. She was excellent and responded quickly and knowledgeably. Then after my order, I had to amend some items and nothing was too much trouble for her! Delivery speed was amazing and as scheduled despite the complex circumstances we are living in. The stove is fully fitted now and working perfectly and we feel it has really added some style to our fireplace and such an improvement! I would highly recommend and I honestly cannot believe we've been able to buy such an up to date, efficient and future proof stove, it really is exceptional value for money. Buying cheap is not always cost effective but when you combine the value and the caliber of this retailer, it is very heart warming! ❤️

 All stoves and accessories delivered in two to three days.
