- ☆ Speedy delivery. ☆ Long guarantees. ☆ Hundreds of 5 star reviews.

## Slimline Panoramic 5kw - Grey

Defra Approved, Eco Design Ready, 5 Year Guarantee

Brand: Purefire

Product Code: Slimline 5kw Grey

# Slimline Panoramic 5kw - Grey

Defra Approved, Eco Design Ready, 5 Year Guarantee

## Custom Grey Finish

This version is hand-finished by professionals here at Stove World UK. The whole unit will be stripped and re-painted with the highest quality Calfire metallic grey paint that not only looks great, but is built to last.

## Slimline

This stove is perfect if you need a physically large stove but can only install one with a 5kw output. This has been achieved with this model by clever design; the external body is very wide (560mm) but the depth of the stove is shallow (314mm). The Purefire also has a twin layer construction - the inner layer has been tapered in at the sides making the fire box slightly smaller and therefore reducing the potential heat output. The firebox is still 400mm wide meaning large logs are not a problem.

## About

This stove proves there is no need to spend £850+ to get an advanced, good quality stove. Some of the features on this stove include a huge, fully heat-resistant, glass-fronted door that gives an amazing view of the fire. Those of you who have had fires before will know this a big plus of owning a stove. The stove is a fully welded construction that includes a 5mm thick body and 10mm thick top. We are so confident of its quality that we offer a 5 year guarantee; something that is not offered on any other stove around this price bracket.

We have tried to give the Defra-approved Panoramic wood burning multi-fuel stove a very minimal aesthetic and have therefore tucked away the air controls under the bottom ash lip which allowed us to increase the glass size for a maximised view of the fire. The stove's air supply is solely drawn in from the rear and regulated by the sliding control on the front. This advanced design makes the stove adaptable for a "direct air feed" which is perfect for new homes.

This version is **Defra-approved**. [Non-Defra-approved version](#) also available.

## DEFRA Approved

This stove has been designed by Ecosy+ and tested at KIWA Gastec in Cheltenham to CE and British standards along with the new ERP testings for Eco Design that will be mandatory for all stoves by 2022, making this stove for now and the future.

It has also been rigorously tested and approved to burn wood in a smoke controlled zones. When ordering over the phone please specify that you require the DEFRA version.

- ★ Glass Size - 430mm x 375mm

## Stove Construction

**Body** - 10mm thick steel top and 5mm thick steel plate sides  
**Fire brick** - Vermiculite

## Clean Burn System

The Ecosy+ has an advanced secondary/tertiary clean burn system. The secondary burn feature re-burns the initial gasses and smoke produced from the fire. This means you are getting every drop of heat from your fuel, saving you money and time.

## 5 Year Guarantee

This covers the stove's body and not the internal perishable parts. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer.

## Why Are We So Cheap?

We design a large amount of our products and they come direct from our factory to us. This completely cuts out the middle man. We can stock over 3,500 stoves at any one time and ship direct to you with no showrooms. We always suggest prospective buyers take a look at our glowing feedback with over 7,000 positive comments on our stoves and stove products.
