- ☆ Speedy delivery. ☆ Long guarantees. ☆ Hundreds of 5 star reviews.

## Zona Vision 9-10kw Multi-Fuel Stove

*Ecodesign, European Built*

Brand:Zona

Product Code: Zona vision

# Zona Vision 9-10kw Multi-Fuel Stove

Ecodesign, European Built

## Description

This stylish European built unit will be at home free-standing in a large open space or give a modern twist to a large inglenook fireplace that requires a stove with a large footprint and presence. The triple aspect glass has to be the stand out feature and will give you a real in depth look into the fire; which is warming in itself. This stove is not all just about looks though, and boasts high efficiency ratings as well as meeting future Ecodesign standards.

**How The Stove Works** - Air is drawn in at the rear of the fire and fed off in to two separate chambers that are regulated by the two chrome base leavers. The right leaver funnels air under the fire and makes lighting a the stove a breeze. The left leaver forces air through a series of holes towards the top of the firebox, releasing air high up in the chamber. This is perfect for wood burning and helps to burn off the initial smoke produced by the fire. Both leavers can be closed down when the fire is established so slowburn can be achieved.

**Body** - The stove is made from laser cut German steel chosen for its weldability and toughness. Every Zona stove body comes with a 2 year guarantee as standard. The stove is fully lined with high density heat resistant fire bricks that shield the body from direct heat and also help lock in heat. Every stove will include a small mineral cast iron grate, ash pan and glove. To drive up the efficiency this stove incorporates a twin baffle plate design.

**Glass** - High quality German Schott glass is used in this unit. The advanced air wash system on all sides helps to keep the glass clean and clear of smoke stains.

## 2022 Ecodesign

The Zona Vision is one of the most up to date and cleanest multi-fuel stoves sold in the UK. It has been tested and approved to meet the new Ecodesign requirements that will be mandatory for all stoves by 2022, making this a stove for now and for the future. This is a tough test to pass and is a true indicator of a well-designed, quality product. Find out more about the Ecodesign scheme at [stoveindustryalliance.com](https://stoveindustryalliance.com).

## Clean Burn System

The Zona Vision has an advanced secondary/tertiary clean burn system. The secondary burn feature is a real advantage as this re-burns the initial gasses and smoke produced from the fire. This means you are getting every drop of heat from your fuel and in turn will save you filling the stove up as often, saving you money and time on fuel.

## 2 Year Guarantee

This covers the stove's body and not the internal perishable parts like grates and fire bricks. Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. For stove to be covered it must be installed by a HETAS engineer or signed off by building control.

## Stove Features

- ✓ 2022 Ecodesign ready
- ✓ 82.05% efficient
- ✓ 9.7kw output
- ✓ Suitable for a direct air feed.
- ✓ Close distance to combustibles at the rear - **just 300mm - (900mm at the side)**
- ✓ Suitable for 12mm hearth
- ✓ Tight locking doors with chrome handles.
- ✓ Top flue outlet - Euro 140mm (Adapter to 6" offered on checkout)
- ✓ Solid Mineral cast iron grate.
- ✓ Full vermiculite fire brick lining.
- ✓ Stove net weight 98kg
- ✓ CE and British standard approved
- ✓ Pre-heated air wash system to help keep the glass clean
- ✓ Slow burn achievable when burning the correct fuel
- ✓ Stove Height: 860mm Width: 563mm Depth: 453mm
- ✓ Distance from back of stove to centre of top flue: 160mm
- ✓ Combustion Chamber Size: W490mm / D270mm / H370mm
- ✓ Glass (front pane): 480mm wide x 380mm high
- ✓ Efficiency Rating - A+
- ✓ 98kg

## Overnight Burn

The Zona Vision has an excellent overnight burn system. Its air tight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little wood and watch the fire roar again.

## Stove Construction

**Body** - Laser Cut, cold rolled steel.

**Grate** - Includes a virgin ore cast iron grate with riddle

**Fire brick** Vermiculite

## Why Are We So Cheap?

We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 3000 stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback on our own site, [Trustpilot](https://www.trustpilot.com), eBay, Google Reviews etc
